

## **TEKISHA LEE**

**Board of Director**

Tekisha Lee is the Founder and CEO of DiverseNote LLC. Tekisha brings fifteen (15) years of experience in the development, implementation and management of curriculum and strategic plans in different STEM industries for the purpose of introducing STEM to new audiences and for workforce planning. Her experience includes a strong understanding of and leadership in the areas of workforce development, economic development, job creation, technology, Federal government and social services for youth and young adults on a national as well as international capacity.

Tekisha's client roster includes public and private sector organizations as well as nonprofit organizations. She has also been appointed as a U.S. Department of State Delegate to the Maghreb, advising on job creation and economic development with other global leaders within the industry.

Tekisha is the Founder and CEO of DiverseNote, the Software as a Service (SaaS) platform that provides outreach, career management, and recruitment services to students and professionals from the all-inclusive underrepresented community (women, ethnic minorities, Veterans, disabled, LGTBQ and others). DiverseNote provides an innovative approach to economic mobility and workforce management. To date, DiverseNote has a user base of over 2.5 million career candidates.
